Courses by HRD Antwerp, approved by diamonds

Dear Sir, Madam,

The world of diamonds is in permanent evolution. So is your partner, HRD Antwerp.

At HRD Antwerp, we aim at keeping pace with new developments and trends in the diamond industry. Therefore, we continuously adjust, develop and improve our courses, to make sure that our students acquire the right skills and knowledge to work in today's diamond and jewellery industry.

At present, we are proud to introduce our new training programme for 2012. As you will discover, three brand-new items have been added to our wide range of courses:

At the explicit request of our students who have been following the Jewellery Design course – Basic Level, HRD Antwerp now launches a Jewellery Design – Advanced Level. The first step in becoming a jewellery designer is to learn how to create a concept and how to turn it into a drawing, before crafting the actual jewel. This course explores your drawing skills, helps you to develop your own personal style and to give shape to your ideas. It guides your inspiration and helps you to materialize it.

To refresh your diamond grading skills, HRD Antwerp now also presents its Diamond Practice Week. During these 5 days, you will be able to update your knowledge acquired during the "Certified Diamond Grader" Course. While teachers assist you with feedback on how to improve your diamond grading skills, you get a review of everything you learned during the initial course.

And last but not least, you will soon be able to follow a Diamond Grading Course in Italian. This new language variant of our traditional diamond grader course will be given in Antwerp, by our senior instructor Peter Bostoën, who has been travelling around the world to educate young professionals in the diamond industry.

We hope you will enjoy our range of courses, all summed up in the enclosed training programme 2012. Feel free to contact us for any information.

We look forward to welcoming you soon,

Dr. Katrien De Corte
Head of Education – HRD Antwerp

CONTEMPORARY DIAMOND JEWELLERY DESIGN

Advanced Course

Building upon the Basic Design Course in which some basic drawing and presentation techniques were explained, this course focuses on more advanced expression techniques, the use of new and sometimes unexpected sources of inspiration, and the development of one's own style. All this with diamonds in mind.

Visiting lecturer Mrs Van Wilder, Associate Professor at St-Lucas Antwerp, has more than 20 years of experience as a lecturer. As an independent jewellery designer she also applies the theory into practice.
